SUMMARY

Fresher DevOps Engineer with strong fundamentals in Cloud Computing and DevOps concepts. Hands-on experience with AWS cloud services, Linux administration, CI/CD pipelines, containerization, and monitoring. Skilled in automating routine tasks using Bash and Python, supporting application deployments, and learning best practices for security, scalability, and reliability. AWS Certified with a proactive learning mindset.

TECHNICAL SKILLS

- **Cloud & DevOps:** AWS (EC2, S3, IAM, CloudWatch), Jenkins, CI/CD, Docker, Kubernetes
- **Monitoring:** Prometheus, Grafana, AWS CloudWatch
- **Automation & Scripting:** Bash, Python (Boto3)
- **Version Control:** Git, GitHub
- **Operating Systems:** Linux, Windows
- **Networking & System Admin:** TCP/IP, DNS, Load Balancing, Basic Server Administration

PROFESSIONAL EXPERIENCE

DevOps Engineer Intern – Exicom Tele-Systems

- Assisted in deploying, monitoring, and maintaining AWS cloud servers and infrastructure
- Worked with AWS services such as EC2, S3, IAM, and CloudWatch for application hosting
- Supported CI/CD pipelines using Jenkins for application deployment and updates
- Containerized applications using Docker and supported Kubernetes-based deployments
- Collaborated with development teams to ensure smooth application releases
- Maintained documentation for infrastructure, deployment processes, and workflows

PROJECTS

AWS Cost Optimization Automation

- Developed AWS Lambda functions using Python (Boto3) to automate routine cloud tasks
- Optimized AWS costs by stopping idle EC2 instances and removing unused EBS volumes
- Implemented IAM policies following security best practices

Two-Tier Application Deployment on AWS EKS (Flask & MySQL)

- Deployed and maintained a Flask-MySQL application on AWS EKS
- Used Docker for containerization and Kubernetes for orchestration
- Configured AWS Load Balancer for high availability and scalability

CI/CD Pipeline – AWS EC2 Deployment

- Supported CI/CD pipelines using Jenkins and GitHub
- Automated build and deployment of applications on AWS EC2
- Improved deployment efficiency through container-based workflows

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate ([Badge](#))

EDUCATION

- B.Tech – Electronics & Communication, CCS University — CGPA: 7.9
- Diploma – Electronics & Communication, Govt Polytechnic Saharanpur — 74%

SOFT SKILLS

- Strong problem-solving skills and proactive learning attitude
- Good communication and team collaboration skills

LANGUAGES

- English, Hindi
